EDUCATION

2022-2026	PhD	University of Oxford, United Kingdom
2012-2018	MD	University of Medicine and Pharmacy at Ho Chi Minh City, Vietnam

EMPLOYMENT HISTORY

2021-2022	Research assistant, Mathematical Modelling Group, Oxford University Clinical Research Unit, Vietnam
2020-2021	Editorial assistant, MedPharmRes, University of Medicine and Pharmacy at Ho Chi Minh City, Vietnam
2019-2020	Research intern, Cancer Epigenetics Lab, Garvan Institute of Medical Research, Australia
2018-2023	Biostatistical consultant, Infertility Department, Tu Du Hospital, Vietnam

GRANTS

I have successfully secured $237,930 in research grants since 2022. Further details are provided below.

2025-2026	PI	$55,456	*Understanding how immunisation inequities drive measles outbreaks.* Funding from University of Oxford's internal 'Improving Equitable Access to Healthcare Pump Priming'.
2024-2025	PI	$27,694	*Modelling measles and hand-foot-mouth disease transmission dynamics in Ho Chi Minh city.* Funding from OUCRU's Programme Scientific Committee.
2023-2025	PI	$29,961	*The impacts of 15-month disruption in childhood vaccination programme on vaccination coverage and seroprevalence in Ho Chi Minh city.* Funding from OUCRU's Programme Scientific Committee.
2022-2024	PI	$20,437	*An R package for modelling infectious disease parameters based on serological and social contact data.* Funding from OUCRU's Programme Scientific Committee.
2024-2025	Co-I	$104,382	*Research cultures in Southeast Asia.* Funding from Wellcome.

AWARDS

2022-2026	PhD Studentship: OUCRU & NDM Tropical Network Fund (University of Oxford)
2019	Outstanding Presentation, 36th Science & Technology Conference, Ho Chi Minh City, Vietnam
2018	Highest GPA in the 6-year medical doctor programme (highest in school history)
2018	Highest dissertation score
2013-2018	Annual highest GPA award

RESEARCH TEAM

Tenure	*Role*	*Name*	*Next destination*
2024-2026	RA	Pham Nguyen The Nguyen	MPH programme at National Cancer Center Graduate School of Cancer Science and Policy
2023-2026	RA	Phan Truong Quynh Anh	PhD programme at University of Oxford
2022-2023	RA	Huynh Ngoc Tuyen	PhD programme at University of Oxford
2024	Intern	Nguyen Thanh Lam	MPH programme at University of Caen Normandie

2024	Intern	Julian Hough	BSc programme at Princeton University
2024	Intern	Huynh Xuan Loc	PhD programme at Boston University

POLICY ENGAGEMENT

2024-2025	Evaluated the city-wide infectious disease surveillance system
2024-2025	Led the benchmarking and selection of algorithms for defining epidemic thresholds
2024	Developed a surveillance dashboard tracking time-varying reproduction numbers to enhance CDC's response capabilities
2024	Authored a rapid measles seroprevalence report to advise the Department of Health during an active outbreak

TEACHING

Modelling

Date	*Attendees*	
2025	30	*Modelling and Analysis of Serological Data: An Introductory Short Course* Teaching assistant for a course jointly developed by MRC Centre for Global Infectious Disease Analysis, Imperial College London and National University of Singapore. Venue: Oxford University Clinical Research Unit.
2024-2025	15	*Infectious disease modelling for babies* Methodologies for mathematical models of infectious diseases. Venue: HCMC's Center for Disease Control. https://drthinhong.com/idm4b
2023	60	*Introduction to mathematical models for controlling infectious diseases* Developing basic compartmental models and the use of reproduction numbers. Venue: HCMC's Center for Disease Control. https://lampk.github.io/IDMIntro

Others

Date	*Attendees*	
2025	20	*Academic writing for babies* Academic writing skills for early-career researchers. Venue: HCMC's Center for Disease Control.
2024-2025	10	*R café* Fortnightly reproducibility in research classes. Venue: Oxford University Clinical Research Unit, HCMC's Center for Disease Control. https://oucru-modelling.github.io/R-cafe-materials
2024	40	*R for babies* Monthly practical R programming classes. Venue: HCMC's Center for Disease Control. https://drthinhong.com/r4babies

Seminars

Date	*Attendees*	
2024	40	*Is this a good journal?* Training on identifying trustworthy scientific journals. Venue: HCMC's Center for Disease Control.

SOFTWARE

1. **Ong T**, Phan TQA, Ha ML, Choisy M (2025). *denim: Construct and simulate deterministic discrete-time compartmental models with customisable dwell time distributions.* https://thinhong.github.io/denim.
2. Phan TQA, Pham NTN, Bui TL, Huynh NT, Choisy M, **Ong T** (2025). *serosv: Analyse serological data and estimate infectious diseases parameters.* https://oucru-modelling.github.io/serosv.

3. Khuong QL, Pham NTN, **Ong T**, Getz K (2025). *tvmedg: Causal mediation analysis using g-computation.* https://causalepi.github.io/tvmedg/.
4. Luu PL, **Ong T**, Loc TTH, Lam D, Pidsley R, Stirzaker C, Clark SJ (2021). *MethPanel: Analyse multiplex bisulphite PCR sequencing to assess DNA methylation biomarker panels for disease detection.* https://github.com/thinhong/MethPanel.
5. Khuong QL, **Ong T**, Hoang VM (2020). *hss: Estimate sample size for health study designs.* https://thinhong.shinyapps.io/samplesize.
6. Luu PL, **Ong T**, Dinh TP, Clark SJ (2020). *Lifted: Enhance genome conversion robustness during reference assembly updates.* https://github.com/thinhong/Lifted.
